## Experience

---

### Freelancer Software Developer

Bucuresti, RO

*Thrive*

*August 2022 - Present*

- Open for collaborations
- Currently learning for AWS Services Certificates
- For a showcase of my projects and comprehensive work, visit [darius-galu.com](https://darius-galu.com)

**Skills:** React.js • React Native • Next.js • Redux • Node.js • Express.js • Tailwind CSS • ChakraUI • Typescript

### Frontend Developer

Bucuresti, RO

*Beecoded*

*February 2023 - Present*

As a frontend developer with a diverse skill set at Beecoded, I have contributed significantly to various projects, showcasing my expertise in modern web and mobile application development.

- Proficient in using **Next.js** for server-side rendering, enhancing web application performance and SEO
- Skilled in creating responsive and interactive user interfaces with **React**, focusing on user engagement and experience
- Experienced in integrating **Stripe** for secure and efficient payment processing in e-commerce applications
- Successfully integrated **Web 3** components into React applications, demonstrating my adaptability to emerging technologies
- API integration and state management, ensuring seamless data flow and real-time updates
- Implemented advanced techniques like code-splitting, lazy loading to optimize application performance and dynamic routing
- Maintained mobile applications using **Cordova**, emphasizing effective troubleshooting and performance enhancements

### Mobile Developer

Bucuresti, RO

*Bobnet*

*April 2022 - February 2023*

At Bobnet, a leader in automated grocery and service delivery, I played a key role in the development and maintenance of their **React Native** mobile applications.

- Actively involved in enhancing existing mobile applications, focusing on improving user interfaces and functionalities for a better user experience.
- Utilized **Fastlane** and **App Center** for continuous integration and continuous deployment (CI/CD), streamlining the build, test, and release processes. Managed version tracking and app updates, ensuring smooth and consistent application performance.
- Worked on refining API integration and optimizing state management using RTK Query from Redux, enhancing app functionality and performance.

My tenure at Bobnet was marked by significant growth in mobile app development, particularly in mastering CI/CD processes and maintaining high standards of app quality and performance.

### Frontend Developer

*GDM Webmedia Services*

**Bucuresti, RO**

*February 2021 - April 2022*

In my role at GDM Webmedia Services, I contributed to a variety of projects, including **e-commerce** apps, **social assistance** apps for the UK Government, responsive presentation websites, and a project that I like to mention is McDonald's Worldwide Convention 2022 where the tech stack for this project was **Next.js**, **Node.js**, **MySQL** and **Strapi** ensuring compliance with **SEO** and **WCAG** standards. My key responsibilities and achievements included:

- Utilized **React** alongside **Next.js** for structured server-side rendering, enhancing application performance and SEO effectiveness
- Employed **Tailwind CSS** for efficient UI styling and **SCSS** for advanced design solutions, ensuring a modern and responsive user interface
- Developed mobile applications using **React Native**, focusing on user-friendly and responsive mobile experiences
- Skilled in using **Redux** for efficient state management and transitioned to **RTK Query** for streamlined data fetching and API interactions.
